

PESTWATCH

Seasonal pest control maintenance

The requirement for a regular maintenance cycle programme is reflected in the fact that pest control is required 365 days a year, seven days a week. This graphic below shows you when certain pests are more likely to be a problem for you and your business.

The most effective method to ensure protection and compliance is to introduce a maintenance cycle programme, with regular, targeted activity undertaken by a BPCA member.

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

PROBLEM
MAJOR PROBLEM

BE PROTECTED. PROFESSIONALLY.

British Pest Control Association is the premier trade association for professional pest management companies in the UK.

By choosing an audited BPCA member you can be assured that the services you receive are from a trained and trusted company that meets our strict membership criteria.

Our member companies meet or exceed all legal and 'due diligence' requirements and comply with the most current legislation.

No other trade body gives you this security.

Make sure you stay safe.

Select a BPCA Member every time.
